28 The Dunbar Surgeon states that he is awaiting the receipt of an estimate for the construction of the building, from the Executive Engineer, Special division, Mysore. He has also furnished a probable estimate of the scheme, as follows:—

(i) Cost of building Rs 35,000.
(ii) Equipment 2,000
(iii) Recurring charges 5,000.
(annual)

37000
−16870
20130

29 According to him, the initial expenditure will be about Rs 37,000 (Non-recurring) and Rs 5000 (recurring per annum). Whether Rs 20000/- plus recurring cost of the scheme for 5 yrs is for consideration. He also states that his suggestion for the diversion of the donation amount, for the purchase of a site was not acceptable to the donor's brother who is said to have expressed the hope of his raising another sum of Rs 10,000/- towards the fund for the Children's Hospital.

31 It is for consideration at this stage whether the Chief Engineer may be requested to expedite the estimate, in consultation with the Senior Surgeon (who has not so far been consulted in the matter).

32) Reference para 24 supra.

Despatched Med 334-30-4

Received

General No. 11/31 8 31.
No.

Enclosure No.

Sir,

Reminder called for [illegible]

In reply to your letter No G.1153 dated 5th instant, I have the honour to state that if the Executors of Mr. Balaraja Urs estate would consider converting the donation for the purchase of Radium, it would be meeting a far greater need than a children's hospital at present.

The additional cost of equipment, staff etc., is out of the question at present. The quantity of ~~the~~ radium purchasable would be about 100 millegrammes, which is a fair working quantity, and this could be used for all the hospitals in the state, as it is not in constant use at any one place. But every week or so cases crop up in which radium would be a god-send. I would urge that this proposition be placed before the Executives for their Careful consideration.

The name of the donor could be used, the radium being designated as the Balaraja Urs Radium Donation and its use be far more reaching than a children's hospital at present.

I have the honour to be,

Sir,

Your most obedient servant,

J P Robinson

Durbar Surgeon & Medical Officer.

Received

GENERAL SECRETARY. 23 NOV. 1931

General No. 19 No.

No.

Enclosure No.

Sir,

In reply to your no. G.3846/Med 334-30 dated 13/14th November 1931? I have the honour to say that I have been awaiting a reply to an enquiry from the Executive Engineer, Special Division, Mysore, asking for an estimate of the cost of a building for a children's ward. I can however give a approximate esti mate.

The Dewan, Sir Mirza Ismial suggested a block parallel to the rear wing of the hpspital and between it and the Sir, Hajee Ismail Sait Out-patient Dispensary. It seems to me this would crowd the space and cut off air to the present wards.

The Out-patient dispensary is built with foundations sufficent to - - support a second story and I would suggest a first floor on the anterior half of this building across the entire front. This would correspond to the first floor portion eventually planned for the proposed New Ophthalmic block. It would afford a ward for 30 add beds.

The cost would be about Rs.35000/-, I should judge of which Rs.17000/- has been left in the will of the Late Sirdar Balaraja Urs for the purpose I had a talk with Mr. Balaraja Urs's brother pointing out that besides the building wich would cost double the amount offered, there was the re-curring expense which under present finaancial stringency, we could ill afford, particularly since there was really no urgent need for a separate children's block. Incidentally, I pointed out the crying need for radium and suggested a diversion of the gift for the purchase of radium. The

P.T.O.

The amount of the donation would just purchase a working quantity of rx radium. But he did not rise to the suggestion. He said he he might be able to rise another Rs.10000/- towards the fund from relatives of the late Mr.Balaraj Urs.

As a separate block, a separate staff would be required besides the equipment, etc., Below is the probable estimate:-

Building	Rs.	35,000/-
Equipment	"	2,000/-
Recurring yearly charges.		5,000/-
Electricity		300/-
4. Ward Ayahas @12/-		576/-
Linen & blankets.		100/-
Poediatric specialist Lady Medical Officer @Rs.250/-		3000/-
Medicines, etc.,		1000/-

I have the honour to be

Sir,

Your most obedient servant,

Durbar Surgeon & Medical Officer.
